DETAILED ACTION

Drawings

1. The drawings filed March 31, 2004 are acceptable.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

In a method of bonding substrates comprising depositing a layer of bonding substrate material of TEOS oxide onto a bonding surface of a first substrate of glass, the prior art does not teach or make obvious the concept of increasing a bonding site density by striking plasma onto the bonding surface treatment without a wet treatment thereafter on the layer of bonding substrate material on the first substrate and on a bonding surface of a second substrate that includes TEOS oxide enclosing an optical device and fusion bonding at room temperature using compression force the bonding surface of the first substrate having the layer of bonding substrate material to the bonding surface of the second substrate in the manner claimed by the applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
